The grading scale is A+, A, B, C, C-, F and W.

3. Important Notice for MC Students

Students are solely responsible for tracking the number of earned credits and planning to fulfill the requirements for the Master's program completion. Thus, make sure to go through the [Student Handbook](#) repeatedly and stay informed well of every related regulation. Also, check the number of earned credits carefully at every end of the semester to see if you are in the right way. We also recommend planning to earn a few more credits than the minimum requirement of 30 credits to avoid any unexpected failures.
